Ruby, Ruby on Rails, Sinatra, Jekyll, Middleman

Ansible, Capistrano, Docker, Dokku

Phonegap / Cordova, familiar with Objective-C

Sketch, Photoshop, Illustrator, InDesign, prototyping tools

## Experience

May 2014 — present

**Iq300 Ltd, Russia**

**iq300.ru**

UI/UX designer,

Front-end developer

Project management SaaS with business tools. I work on improving user flows and redesigning UI. As a result we got **450% active users growth** and **120% sign ups increase** in last 6 months. Also separated front-end from backend to speed up development and perform idea testing with real-data interactive prototypes.

May 2014 — September 2014

**Flow Health Inc, US**

**flowhealth.com**

Front-end developer

Connecting healthcare providers, patients and payers around a single platform. I did **UI development** and **refined UX** so we could build consistent product from separate outsourced mock ups.

November 2011 — May 2014

**Brandy mint LLC, Russia**  
**brandy mint.com**

UI/UX designer,  
Front-end developer

Distributed team working on project basis using Agile and Scrum principles. I was responsible for estimating project costs, prototyping and designing interfaces (web and mobile), front end development. Important outcome was **setting up design process** and becoming a distributed **product team** instead of being just outsourcing agency.

2008 — present

**Freelance**

Graphic / Web / UI designer,  
Front-end developer

I work on short side projects from time to time. Web design and development, mobile apps design, branding and graphic design. This helps to quickly try new methods and technologies to stay tuned with tech and design trends.

November 2008 —  
November 2011

**Gulliver, Russia**  
**gulliveria.ru**

Graphic designer,  
Web developer

Restaurants and spirits shops company. I worked to build and support brand identity, including several websites, outdoor signs, special campaigns and some interior design elements. The main achievements are the brand image every local can recognize and new channels for customers to communicate with.

February 2007 —  
July 2007

**ZH Group, Russia**

Graphic and web designer,  
Front-end developer

Fashion companies group based in Moscow. I did some minor design changes related to the websites and implemented them. Also some graphic design work based on their brand guidelines.

## Education

2005 — 2007

**Moscow Institute of Physics and Technology (State University)**  
Electrophysics

2007 — 2009

**Ulyanov Chuvash State University, Cheboksary**  
Relay protection and automation
